

## What brought MGM MIRAGE to the Dog & Pony Show??

Truth be told...I was treated rudely by another owner of a company that shall not be named. Thus...my hunt for the perfect Audio Genius led me to John. I called him, he seemed nice, we met, and the decision was made. His home is quite cozy and he always buys me lunch. Our relationship began over a year and a half ago and unless he moves to Siberia, he is and always will be "The Man".

John has far exceeded my expectations. He is extremely talented and knows what we like. He also keeps really yummy chocolate in the studio and stocks up when the Girl Scouts come to town! He has 2 dogs and about 10 cats (not really)...all of whom are quite friendly and have never bitten me once. John also has a beautiful and super fun wife, whom I have grown very fond of.

On a serious note...he's irreplaceable, his talents are immeasurable and we at MGM MIRAGE value his talent, attention to detail and great customer service.

Don't go changing McClain!
